The one and only Savior

carried Heaven's
Precious
Light.

A Heartbeat for Horses

I spent my childhood reading horse books; Marguerite Henry titles were favorites

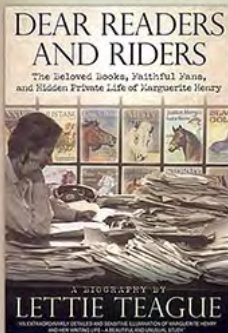

Back then I didn't think about the author – how she knew and loved horses so much that her writing made them seem real.

Fast forward to today - a couple of those former horse crazy girls *did* think about the author behind the books that transported us all to magical horsey times and places. Two women on a similar trajectory have each gifted us with unique accounts of Marguerite Henry's remarkable life.

Thanks to Lettie Teague and Susan Friedland for answering all the questions that we didn't know to ask.

HoofPrints owner Gina Keesling circa 1967

Dear Readers and Riders

The Beloved Books, Faithful Fans, and Hidden Private Life of Marguerite Henry by Lettie Teague

The untold story of a favorite author, featuring original artwork by Wesley Dennis, along with over 100 photographs, letters, and more. Marguerite's professional existence was profoundly public, particularly after bestseller *Misty* was published in 1947, but her own life was mostly shielded from view. Teague's instincts for illustrating fascinating

details helps readers construct the settings in which Henry's creative mind, intensive historical and scholarly research, and storytelling ability matured and evolved. Softcover, 308 pages

More Farrier Favorites

HoofPrints.com started out as Farriers Greeting Cards

Artist & horse owner Gina Keesling made the first farrier Christmas card for husband Rob to send to horseshoing clients in 1985. Read the rest online at [More About Us](#).

Quench Water Coffee - the full story

My farrier husband likes his coffee black. And strong. He describes it as **Strong enough to float a horseshoe**. Thus, the concept for this coffee was born. In farriery, quench water is used to quickly cool heated shoes, but the water in stationary shops is not changed. It lingers, taking on murky, mythical qualities. The vision of horseshoes floating in coffee seemed a fun idea for a real brand. It's roasted in small batches for freshness.

New from Anna Blake! Undomesticated Women:

Anecdotal Evidence from the Road
In this deeply personal account of her life as a traveling equine clinician, and horse advocate, Anna Blake celebrates the lives of the women and horses that she meets.

Driving coast-to-coast with her Corgi, Mister, Anna braves interstates and dirt roads, RV parks and truck stops, sharing what she sees with clear and clever wit. In this book you'll find the heart-

touching (and sometimes heart-stopping) accounts of a woman who, despite the world's best attempts, remains undomesticated.

He was trained by kindness around 1900; a concept not considered viable at that time. The idea that a horse (that era's car) could be granted education/autonomy; trained by a human who was deprived of the same; this stunning true story was almost lost forever.

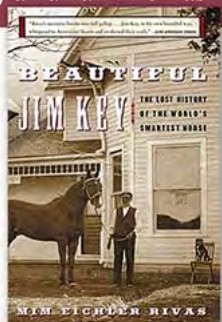

Beautiful Jim Key

The Lost History of the World's Smartest Horse

The true story of an American hero who rose to international fame at the turn of the century, who, in his short 23 years, helped spur a shift in human consciousness.

Gina's note; *I thought I'd read every horse story in existence. But Jim Key's was almost not told - ever - until author Mimi Eichler Rivas found herself in the middle of a mystery surrounding the forgotten tale of a horse who could read, do math and his owner; former slave and self-taught veterinarian Dr William Key.*
